<b>Investment Type(s)</b>	Advisory Services
<b>Investment Amount (USD)</b>	\$ 0.38 million
<b>Project Cost (USD)</b>	\$ 0.38 million

### Project Description

According to the IADB, this Technical Cooperation (TC) aims to foster dialogue on shared policy challenges in Latin America and the Caribbean (LAC) within the framework of international climate negotiations and the Multilateral Development Banks (MDB) agenda. By facilitating regional coordination this TC will support collective action efforts. It will also fund the IDB's participation at COP30 to highlight its strategic topics like resilience, amazonia, financial innovations, climate action, and Belem alignment. Through this engagement, the IDB will: (i) strengthen its role as the leading partner in policy transformation across Latin America and the Caribbean, while positioning the region as a vital part of the global solution (ii) showcase its projects, policies, and partnerships that advance investments within and beyond LAC; (iii) position the region as a leader in addressing environmental challenges on a global scale; and (iv) foster collaboration and dialogue with clients and partners.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
