Project Description

According to the IADB, the objective of this Technical Cooperation (TC) is to deliver on the Audit Action Plan (AAP) and to further enhance the process of Climate Finance, Green Finance, and Paris Alignment. It would bring the necessary resources and expertise to be able to deliver on these actions, so that climate considerations in operations are better prepared and addressed, both from the IDB and the Borrower's perspective. This would result in more agile processes and in clearer expectations so that IDB staff and clients can better integrate these climate aspects from the earliest stages of project preparation

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
