IADB-RG-T4726

Project Description

According to the IADB, the objective of this Technical Cooperation (TC) is to improve the quality, coverage, accessibility, and usability of geospatial and higher education data in Latin America and the Caribbean. The specific goal is to integrate geospatial data and higher education data into the Bank's educational data platform, CIMA. This integration will enable the adoption of an educational pathways perspective and enhance the use of data to inform decision-making.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
