### Project Description

According to the IADB, this Regional Technical Cooperation (TC) seeks to support Latin American and Caribbean (LAC) countries in translating their climate commitments and planning instruments--such as Nationally Determined Contributions (NDC), Long-Term Strategies (LTS), National Adaptation Plans (NAP), and sectoral climate plans--into concrete, actionable economy-wide and sectoral policies and investment strategies as catalysts for achieving national socioeconomic objectives. Specifically, the TC will support climate action design and implementation by assisting sectors--such as finance and treasury, energy, transport, industry, and agriculture, among others--in designing and executing policies and investments aligned with national climate objectives, ensuring that each sector's leading institutions drive implementation.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
