Project Description

According to the IADB, this Regional Technical Cooperation (TC) seeks to support Latin American and Caribbean (LAC) countries in translating their climate commitments and planning instruments--such as Nationally Determined Contributions (NDC), Long-Term Strategies (LTS), National Adaptation Plans (NAP), and sectoral climate plans--into concrete, actionable economy-wide and sectoral policies and investment strategies as catalysts for achieving national socioeconomic objectives. Specifically, the TC will support climate action design and implementation by assisting sectors--such as finance and treasury, energy, transport, industry, and agriculture, among others--in designing and executing policies and investments aligned with national climate objectives, ensuring that each sector's leading institutions drive implementation.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
