Sustainable Tourism: Research and dissemination to improve competitiveness in LAC

Project Description

According to the IADB, the general objective of this Technical Cooperation (TC) is to contribute to the strengthening of the tourism sector in Latin America and the Caribbean through the generation, systematization, and dissemination of relevant knowledge, as well as the improvement of the capacities of public policy makers and other key stakeholders. This approach aims to address information gaps by generating and providing access to data, as well as creating empirical evidence to support public policy decisions based on reliable information.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
