### Concessional Finance in Latin America and the Caribbean

### **Project Description**

According to the IADB, the primary objective is to strengthen the capacities of countries to: (i) prioritize and develop a strategic pipeline of climate-related projects that align with their national climate plans and international commitments; and (ii) prepare high-quality, bankable project and program proposals that meet the investment criteria of major climate concessional funds. This TC will build on previous efforts to support LAC countries in accessing diverse sources of concessional finance from multilateral and bilateral funding mechanisms.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
