Project Description

According to the IADB, the general objective is to support the implementation of actions outlined in the Central American Strategy for Trade Facilitation and Competitiveness (ECF CC-2023) with regard to the Coordinated Border Management (CBM) model, in order to improve controls, the clearance of goods, and the movement of people. Specifically, this Technical Cooperation (TC) aims to support three areas directly related to the CBM model: (i) contribute to the approval and implementation of the regional CBM model as a strategic instrument for the region; (ii) strengthen the technical capacities of the countries in implementing the ECF CC-2023; and (iii) create spaces to maintain and strengthen support for their trade facilitation and competitiveness agenda within the process of economic integration in Central America.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
