IADB-RG-T4742

Climate resilience and pertinence of Education in the Amazon: implementing the Belem

Project Description

According to the IADB, the general objective of the TC is to establish a ministerial network to coordinate and define the action plan for implementing the pillars outlined in the Belem Declaration. To achieve this, the TC will support strategic activities and products, including: (i) the establishment, consolidation, and capacity building of the ministerial education network; (ii) the generation of knowledge regarding the maturity level of policies associated with the different pillars of the Declaration and best practices for their implementation; and (iii) the development of action plans to implement the objectives of the Belem Declaration.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
