Project Description

According to the IADB, the general objective of this proposal is to analyze the equity of various fiscal country specific interventions and provide technical and practical advice to Latin American and Caribbean governments to improve fiscal policies and effectively reduce poverty and inequality. The specific objectives are to (i) integrate equity into fiscal policy design to ensure that fiscal policies balance equity with efficiency, sustainability, and economic growth while minimizing unintended negative consequences; (ii) enhance policy design with the use of rigorous quantitative and qualitative analysis to assess the distributional impacts of fiscal policies and improve resource allocation; and (iii) support policymakers with evidence-based Insights to provide governments with analytical tools to design, compare, and implement effective and equitable fiscal policies across the region.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
