Project Description

According to the IADB, the objective is to strengthen the capacity of member countries in the LAC region to implement effective policy strategies to comply with international deforestation-free trade standards, including the EU Deforestation-free Trade Regulation (EUDR). Specific objectives include: (i) increasing countries' capacity to benchmark deforestation risks; (ii) strengthening country readiness to comply with EUDR requirements, including traceability and legality of production as well as due diligence; and (iii) strengthening private-public partnerships aiming at overcoming information asymmetry and widening the participation of small and medium-sized farms and intermediary firms in supply chains.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
