Project Description

According to the IADB, the general objective of this TC is to strengthen the technical and institutional capacity of the MERCOSUR full member countries in the early stages of signing, ratifying, and implementing the bi-regional trade agreement with the European Union (EU). The specific objectives are: (i) to assess the economic and regulatory impacts, as well as the legal and institutional reforms needed to fully leverage the agreement; (ii) to provide technical support to national authorities during the signing, legislative ratification, and design of implementation plans; and (iii) to identify priority areas for intra-regional intervention to prevent the erosion of trade preferences, the obsolescence of the regional regulatory framework, and to jointly seize new market access opportunities.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
