Strategic support for investment facilitation in Latin America and the Caribbean

Project Description

According to the IADB, the general objective of this Technical Cooperation (TC) is to provide strategic support to Suriname, Belize and Honduras in the implementation of the Investment Facilitation for Development (IFD) Agreement of the World Trade Organization (WTO). This support aims to enhance the countries' capacity to attract and retain high-quality foreign direct investment (FDI) by aligning national policies and practices with the provisions of the IFD Agreement. The TC has two specific objectives: (i) to assist LAC countries in conducting their IFD Agreement self-assessment; and (ii) to generate knowledge exchange and dissemination of best practices in the implementation of investment facilitation measures.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
