Project Description

According to the IADB, the general objective of this technical cooperation (TC) is to strengthen the technical, productive, and export capacities of women-led or women-owned small and medium-sized enterprises (SMEs) in Latin America and the Caribbean, promoting their sustainable inclusion in local, regional, and global value chains. This effort seeks to address the systemic challenges these companies face that hinder their growth, competitiveness, and internationalization, such as limited access to financing, low participation in supply chains, limited access to digital transformation tools, and narrow networks.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
