Strengthening Fiscal Governance through Comparative Data and Policy Insights in Latin American

Project Description

According to the IADB, the general objective of the Technical Cooperation (TC) is to enhance the capacities of public and fiscal management policymakers in Latin American and Caribbean (LAC) countries by developing and applying a set of indicators that enable the comparative assessment of relative performance across countries and against member states of the Organization for Economic Cooperation and Development (OECD), contributing to the strengthen of public institutions.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
