Project Description

According to the IADB, the general objective of this TC is to enhance the IDB's accountability and capacity to monitor and report on the execution of climate finance commitments, as a first step to measure climate finance results. The specific objectives are: (i) Track effectiveness and portfolio-level results of climate finance of the IDB portfolio primarily relying on existing project-cycle IDB data systems; and (ii) Strengthen institutional processes, capacity, accountability, and transparency of the development effectiveness of climate finance.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
