Investment Amount (USD)	\$ 0.10 million
Project Cost (USD)	\$ 0.10 million

Project Description

According to the IADB, the general objective of Operations Day is to strengthen country portfolio management and the results orientation of sovereign-guaranteed operations by advancing a culture of impact, knowledge sharing, and continuous learning among IDB teams, and PEUs of IDB-financed projects. The initiative aims to help mainstream the development effectiveness agenda in the countries by introducing new concepts, processes, and tools aligned with the IDB Strategy+ and the Development Effectiveness Policy Framework, while generating practical knowledge products and promoting a stronger results-driven focus.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
