Investment Amount (USD)	$ 0.50 million
Project Cost (USD)	$ 0.50 million

Project Description

According to the IADB, the Technical Cooperation (TC) has the objective of supporting the implementation of Building Information Modeling (BIM) in Costa Rica, Panama, Peru and Colombia. BIM is a set of methodologies, technologies, processes, and strategies that enable the various actors to collaboratively plan, design, build, operate, and maintain a project (building or infrastructure) in a virtual space.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
