Project Cost (USD)	$ 0.71 million

Too Good to Waste II: Transforming wastewater into a low methane and circular economy opportunity in LAC

Project Description

According to the IADB, the objective of this Technical Cooperation (TC) is to support the beneficiary countries in the transformation of wastewater sludge and waste management practices by circular economy adoption, enhanced climate resilience and methane emissions.

Investment Description

- Inter-American Development Bank (IADB)

As stated by the IADB,t he total cost of the project is US$712,500. The WINDWARD FUND, on behalf of its project GLOBALMETHANE HUB, will contribute US$750,000 to this project, of which US$ 37,500 will be set aside as a 5% administration fee.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
