## Project Description

According to the IADB, this Technical Cooperation (TC) aims to support borrowing member countries in enhancing the effectiveness, efficiency, and transparency of public resource management by leveraging national fiduciary systems. This objective will be pursued through: 1) Conducting assessments and diagnostics to evaluate the development and performance of national fiduciary systems, ensuring the availability of updated and relevant information. 2) Identifying international and regional best practices through technical studies, research, and performance analysis; and 3) Supporting the development of strategic action plans that enable countries to plan, prioritize, and build technical capacity for sustained improvements in fiduciary management.

## Investment Description

- Inter-American Development Bank (IADB)

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
