Project Description

According to the IADB, this Technical Cooperation (TC) aims to improve the effectiveness, reliability, and sustainability of national fiduciary systems in order to enable and optimize their use in IDB-financed operations, by aligning them with international standards and best practices. This will be achieved through: 1) Support the adoption and integration of international standards, as well as the progressive reduction of gaps with respect to recognized best practices. 2) Promoting knowledge exchange and collaboration among governments in the region, enabling countries to share successful experiences and lessons learned to drive continuous improvement in fiduciary governance and public resource management.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
