

IADB-RG-T4830

Sustainable data to assess the effectiveness of IDB operations in the health sector

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	U
Voting Date	2025-10-24
Sectors	Education and Health, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.18 million
Project Cost (USD)	\$ 0.18 million

Project Description

According to the IADB, the objective of this TC is to build sustainable data products to inform, monitor and evaluate IDB operations in the health sector by leveraging, harmonizing and generating a better understanding of existing administrative health data. It has three specific objectives. First, expand prior methodological and analytical work on health systems performance measures using administrative data on hospital discharges and vital registries to develop regional data with harmonized indicators. Second, develop a systematic approach to create a set of high-frequency intermediate indicators along the causal chain to influence health on persons with chronic conditions to better monitor, evaluate and adapt projects related to NCDs in countries with the most extensive sets of administrative records. Third, develop and conduct a medical record review of hospital discharges to provide a more comprehensive understanding of key metrics based on hospital data such as intra-hospital mortality or preventable hospitalizations for conditions sensitive to primary health care.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
