Project Description

According to the IADB, the objective is to generate and disseminate knowledge that contributes to strengthening causal logic and evaluation frameworks in citizen security projects. This will be achieved through the development and systematization of theories of change and a set of outcome indicators that can guide project preparation in the sector with an effectiveness-oriented approach. The initiative also aims to promote results-based operations and provide tools and indicators to improve the design and evaluation of projects in the sector.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
