Project Description

According to the IADB, the objective is to strengthen knowledge management and strategic communication for the rural WASH sector in Latin America and the Caribbean, by generating, organizing, and disseminating lessons learnt and tools from the SIRWASH initiative, while ensuring effective program coordination and sustained dialogue with participating countries and partners. The TC will support the development of communication strategies, knowledge products, and regional recommendations, as well as the operational implementation and alignment of activities through a dedicated coordination mechanism.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
