## Project Description

According to the IADB, the general objective of this Technical Cooperation is to contribute to improving the effectiveness of the IDB's transportation operations by the systematizing and analyzing existing operational knowledge on public works bidding and contract execution processes. To achieve this, the proposal focuses on: (i) the organization and analysis of relevant information to strengthen the quality, traceability, and utilization of data on bids and contracts; and (ii) strengthening technical capacities within the Bank and among its national counterparts to implement best practices and promote continuous improvement in contract management.

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
