### Project Description

According to the IADB, the objective of this TC is to support the design and implementation of Growth Delivery Plans. These Plans are practical, action-oriented blueprints for reform and investment aimed at unlocking private sector-led economic growth. Grounded in robust diagnostics and developed in partnership with national governments, they constitute a coordinated package of targeted reforms and priority sector opportunities, drawing on the full suite of IDB Group instruments, with the goal of boosting productivity and economic growth.

### Investment Description

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
