Project Description

According to the IADB, the objective of this Technical Cooperation (TC) is to develop a targeted freight logistics network strategy for Caribbean countries that enhances regional connectivity, reduces logistics costs, and strengthens supply chain resilience. Specifically, this TC seeks to improve the efficiency of regional freight logistics, particularly for time and temperature-sensitive supply chains, by establishing shared data foundations, producing comparable country outlooks and pre-feasibility assessments, and developing country-level roadmaps that catalyze investment in freight logistics upgrades.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
