Project Description

According to the IADB, the general objective of this Technical Cooperation (TC) is to support beneficiary countries in strengthening regional digital integration through cooperation and joint decision-making among regional stakeholders. To this end, the proposal focuses on: (i) developing a regional roadmap to 2030 that guides joint investments in digital infrastructure and promotes technical and regulatory coordination among beneficiary countries; (ii) identifying and designing solutions to overcome barriers that limit the expansion of connectivity and interoperability, strengthening the resilience of regional networks; and (iii) analyzing, defining, and implementing strategies for integrating harmonized regulatory frameworks that foster equitable access to high-quality digital services, the development of digital capacities, and cooperation among governments, the private sector, and civil society.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
