Project Description

According to the IADB, this project aims to lay the foundation for the establishment and operation of the Central American Sanitary Regulation Agency as the primary entity for harmonizing regulatory frameworks and strengthening access to safe, effective, and high-quality medicines and medical technologies. This will be achieved through the implementation of a regional governance model, standardized guidelines, and a digital tool for joint evaluation. It is expected that these measures will reduce duplication, accelerate approval processes, and enhance regulatory oversight among the countries.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
