Project Description

According to the IADB, the objective of this Technical Cooperation (TC) is to strengthen the capacity of Honduras, Guatemala, and El Salvador to identify and analyze return migrants in national household surveys, in order to improve the evidence base for reintegration, social inclusion, and poverty reduction policies. Specifically, the TC will support the development, testing, and incorporation of harmonized return-migrant identification questions into selected household survey instruments, allowing the three countries to generate comparable information on the size, profile, geographic distribution, and selected reintegration outcomes of return migrants.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
