Project Description

According to the disclosure statement, the objective of this Technical Cooperation (TC) is to support LAC governments in developing a structured framework to strengthen digital and data infrastructure, promote the responsible adoption of emerging technologies, and address key governance, regulatory and investment gaps. This initiative seeks to enhance digital transformation efforts, foster regional collaboration, and contribute to inclusive and sustainable growth by addressing the digital infrastructure gap in the LAC region that continues to hinder the region's transition toward data/driven economies and the widespread adoption of emerging technologies, particularly Artificial Intelligence (AI).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
