Borrower	IDB borrowing countries
Sectors	Industry and Trade, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.30 million
Project Cost (USD)	$ 0.30 million

Project Description

According to the IADB, the objective is to promote public-private collaboration to enhance talent readiness for the digital requirements of strategic industries, to increase productivity, attract investment, and enhance participation in global and regional value chains (GVCs/RVCs). Specifically, the TC aims to close the human capital gap by cultivating a resilient, digitally skilled talent pool--anchored in an industry-led, demand-driven training ecosystem--that seamlessly aligns with the rapid technological and structural needs of strategic industries in Central America, Panama, and the Dominican Republic (CAPDR) countries. By doing so, the TC seeks to accelerate domestic technology adoption, increase systemic productivity, attract targeted Foreign Direct Investment (FDI), deepen the region's integration into global and regional value chains (GVCs/RVCs), and expand inclusive, high-quality economic opportunities for youth and active workers.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
