Project Description

According to the IADB, the general objective is to strengthen financial innovation and development effectiveness of Public Development Banks. This will support PDB, key actors for IDB operations through global credit lines, in optimizing their interventions to address market failures that limit financing to the private sector and will provide a reference to strengthening the institutional capacity of PDB by improving their development effectiveness frameworks. The specific objectives are: (i) develop innovative financial instruments and risk mitigation methodologies for PDB; (ii) develop effectiveness related frameworks for PDB; and (iii) support PDB regional networks, leveraging the knowledge and lessons learned they generate in terms of financial innovation and institutional strengthening.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
