Project Description

According to the IADB, the general objective of this TC is to strengthen the institutional capacity of financial authorities in LAC by supporting the design and implementation of modern and sound regulatory frameworks, advanced supervisory tools, and supervisory technologies that enhance financial stability, resilience and inclusion across the region. The specific objectives are to: (i) support financial authorities in drafting and updating fit for purpose financial regulations, public policies and institutional reforms that close gaps against international standards; (ii) enhance the capacity of financial supervisory agencies to adopt and use technology (SupTech) for more effective, risk-based oversight; and (iii) foster structured public-private dialogue on financial innovation and stability.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
