### Project Description

According to the bank disclosure statement, the objective of this Regional Technical Cooperation is to evaluate the performance and development effectiveness of the IDB's upstream PPP technical assistance agenda, covering more than 60 interventions delivered across 16 countries in LAC -- identifying what works, what does not, and under which conditions. All of this with the ultimate purpose of embedding systematic learning into the evolution of upstream PPP support, extracting lessons from more advanced ecosystems to guide interventions in countries with incipient or nonexistent frameworks, and strengthening the regulatory, institutional, and planning environments that enable a new generation of high-quality, effective, and sustainable infrastructure across the region.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
