Project Description

According to the IADB, the general objective of this TC is to strengthen the capacity of macro-fiscal units within the Ministries of Finance (MEF) in Ecuador and Colombia to inform fiscal policy decisions that affect growth, equity, and fiscal sustainability, by improving the analytical inputs used in macro-fiscal policymaking. The specific objectives are to: (i) develop a harmonized institutional framework to guide macro-fiscal units in the design and evaluation of fiscal policy; and (ii) create a Regional Fiscal Analysis Tool based on standardized Fiscal SAMs, enabling multisectoral, evidence-based assessments of the growth and distributional impacts of fiscal policies. These tools will support the analysis of fiscal policy trade-offs--such as tax and expenditure reforms, fiscal consolidation paths, and sectoral impacts--used in policy dialogue and the preparation of lending operations

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
