## Project Description

According to the IADB, the objective is to accelerate the evidence-based mainstreaming of biodiversity and natural capital into IDB operations and Latin American and Caribbean (LAC) countries' development planning by producing sub-regionally targeted research and ensuring its effective uptake among decision-makers, practitioners, and financial institutions; thereby advancing compliance with the national commitments under National Biodiversity Strategies and Action Plans (NBSAPs) and Nationally Determined Contributions (NDCs).

## Investment Description

- Inter-American Development Bank (IADB)

## Contact Information

No contacts available at the time of disclosure

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
