| Project Cost (USD)      | \$ 0.10 million                                |

---

### Project Description

According to the IADB, the objective of this technical cooperation is to produce a 2027 CSD Departmental Flagship book (hereafter 'Flagship') on air pollution in Latin America and the Caribbean (LAC). The Flagship, in turn, has two objectives. The first is to raise the profile of a critically important yet under-appreciated problem both within the region and within Inter-American Development Bank Group (IDBG). The second is to provide guidance to client countries and IDBG stakeholders on how to address that problem.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
