Project Description

According to the IADB, the general objective of this Technical Cooperation is to support the implementation of the MERCOSUR-European Union Agreement by strengthening technical and institutional capacities in the public and private sectors of the States Parties, promoting awareness and understanding of its content and implications, and fostering effective coordination among government, business, and social actors. The specific objectives are: (i) to strengthen the technical and institutional capacities of public and private actors for the effective implementation of the MERCOSUR-European Union Agreement; (ii) to support the productive sector, with particular attention to SMEs, in identifying and leveraging the opportunities arising from the Agreement, including through strengthened public-private coordination and dialogue; (iii) to improve knowledge and understanding of the content, scope, and implications of the MERCOSUR-European Union Agreement among public officials, the private sector, and other key stakeholders; and (iv) to contribute to the availability and use of technical information and practical evidence to guide the design and coordination of public policies related to the implementation process of the Agreement.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
