Borrower	IDB borrowing countries
Sectors	Industry and Trade, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.65 million
Project Cost (USD)	\$ 0.65 million

Project Description

According to the IADB, From the Vice Presidency for Sectors and Knowledge (VPS), this Technical Cooperation looks to build upon the IDB Group Synergies roadmap by generating evidence on cross-window operational collaboration and private sector engagement, and converting that evidence into practical tools, piloted mechanisms, and capacity-building efforts that can scale across the Group. Grounded in the Productivity, Trade, and Innovation (PTI) agenda -- where deeper private sector participation is a central driver of growth -- it positions cross-window collaboration as a lever to sharpen the Group's development impact. Its specific objectives are to: (i) Strengthen cross-window synergies understanding within the IDB Group by conducting applied research on real collaboration experiences; (ii) Activate and systematize private sector engagement that drives productivity and growth by assessing forms of IDB-private sector interaction that are not yet institutionally tracked; and, (iii) Build institutional capacity and disseminate findings.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
