## Project Description

According to the disclosure statement, the objective of this Technical Cooperation is to close the implementation cycle of the TVET Fund by consolidating its results, capitalizing on the evidence generated, and positioning its lessons learned to inform future skills development operations in the region. This will be attained through the following specific objectives: i) consolidate the evidence and lessons learned from the Fund's portfolio, including impact evaluation and external evaluation activities; ii) produce a publication addressing structural knowledge gaps in skills for work/TVET, with an emphasis, to the extent possible, on the Caribbean and Central America; and (iii) disseminate the Fund's consolidated results and knowledge products to inform policy dialogue and future TVET operations.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
