Project Description

According to the IADB, the objective of this Technical Cooperation (TC) initiative is to strengthen digital governance in Latin American and Caribbean (LAC) countries by promoting clear and structured governance frameworks that help eliminate barriers, consolidate institutional progress, and foster interoperability among different public agencies. This objective will be achieved through: i) promoting national and cross-border interoperability, ii) improving governance and management capacities for digital transformation, and iii) comprehensively modernizing digital public services.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
