Effects of Fiscal Space and Public Investment Conditions on IDB Project Execution

Project Description

According to the IADB, the overall objective is to analyze how fiscal space and public investment conditions influence the implementation and performance of IDB-financed operations in countries of the Andean Region. The specific objectives are: (i) to analyze the evolution of fiscal space for public investment; (ii) to assess the extent to which fiscal and budgetary constraints have affected the implementation and performance of IDB-financed operations; and (iii) to formulate evidence-based recommendations to strengthen the programming, prioritization, preparation, design, and implementation of the Bank's operations.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
