Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.22 million
Project Cost (USD)	$ 0.22 million

Carving a Path Towards Impact II: Key Factors for Effective Execution in the Caribbean

Project Description

According to the IADB, this project seeks to improve the development effectiveness of IDB-funded operations in the Caribbean by strengthening the understanding of the drivers behind project execution and portfolio performance in selected Caribbean countries. Under a programmatic approach, the project builds on BH-T1132 (Carving a Path Towards Impact II: Key Factors for Effective Execution in the Bahamas). Under this general objective, the project has four specific objectives: (i) to increase the IDB's and partner countries' understanding of the main drivers of portfolio performance and project execution in specific Caribbean countries--namely The Bahamas, Jamaica, and Trinidad and Tobago; (ii) to obtain insights into common challenges and opportunities for portfolio and execution improvement across the Caribbean region; (iii) to identify practical actions to improve project execution and portfolio performance at both national and regional levels; and (iv) to collect, systematize, and document tacit knowledge on the main drivers of project execution and portfolio performance as perceived by Project Execution Units, making this insight available to public servants, IDB technical teams, and IDB management.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
