Connectivity Improvements and Their Impact on Trade and Transport Times in Conexion Sur Countries

Connectivity Improvements and Their Impact on Trade and Transport Times in Conexion Sur Countries

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	IDB borrowing countries
Sectors	Industry and Trade, Technical Cooperation, Transport
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.20 million
Project Cost (USD)	$ 0.20 million

Project Description

According to the IADB, the goal of this TC is to estimate the potential reductions in transport times and trade costs associated with improvements in transport infrastructure across 11 South American countries (whether through South Connection initiatives or other operations) by comparing the current transport network with projected scenarios and quantify the potential impact of these reductions on trade integration and trade volumes.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
