Project Cost (USD)	$ 0.25 million

Project Description

This project funds support in Latin America and the Caribbean for the United Nations initiative "Sustainable Energy 4 All". It has three components. The first will create Strategic Action Plans to implement sustainable energy in the various areas of Latin America. The second will involve consensus building to gain political commitment for the UN initiative. The third will provide technical cooperation for investment plans to reach the sustainability goals of the initiative.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
