Emerging and Sustainable Cities Pre-feasibility urban design studies for  
six LAC countries

## Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Sectors	Infrastructure
Investment Amount (USD)	\$ 0.07 million

## Project Description

The main objective of the project is to finance pre-feasibility urban studies on five cities in the LAC region. Austria supports the Emerging and Sustainable Cities Initiative through financial contribution and technical expertise. In collaboration with the Institute for Urban Design and Landscape Architecture at the University of Technology of Vienna (UTV), this contribution was set up to enable professionals in the fields of Architecture and Urban Planning to contribute to the implementation of the Emerging and Sustainable Cities Program.

## Investment Description

- Inter-American Development Bank (IADB)

## Contact Information

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
