Consolidating a Sustainable Energy Sector

IADB-SU-L1055

Quick Facts

Countries	Suriname
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	B
Voting Date	2019-12-09
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	$ 35.00 million

Project Description

According to the Bank's website, this project aims to ensure adequate and modern access to sustainable electricity to enhance the living conditions of the rural population. This will entail: (i) advancing the implementation of energy reform through support to the Energy Authority of Suriname; (ii) increasing the reliability of the power system and promoting the diversification of the energy matrix through financing related pre-investment activities; and (iii) expanding electricity coverage through a combination of grid extension and off-grid systems.

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
