| Investment Amount (USD) | \$ 45.00 million |

Project Description

The general objective of the operation is to enhance Suriname's competitiveness and logistics performance by improving efficiencies and reducing both costs and time to clear goods at the primary port facility in Suriname. The specific objectives of the program are: (i) improving the infrastructure and operations of the Port of Paramaribo through the provision of port efficient infrastructure, and the acquisition and implementation of equipment and digital platforms to facilitate trade logistics and goods clearance processes; (ii) improving the level of service, capacity, and resilience of adjacent roads and access to the port; and (iii) strengthening institutional capacity to ensure optimal execution, sustainable asset management, and adequate operation

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
