Project Description

The general objective of this proposed TC is to develop and install capacities in MoF for carrying out the urgently necessary institutional reform initiatives using an integrated framework through the acquisition of professionalized PM theories and practices, complemented with the knowledge of CM. The specific objectives include: i) to install a unit within the Ministry of Finance (MoF), which will report directly to the Minister. Its responsibility will be leading the process of institutional reform initiatives through project management and change management (PCM) training and coaching; ii) to create and implement a PCM training program tailored to the needs of different MoF units that will undergo reform initiatives; and iii) to provide coaching for the reform initiatives that they are responsible for.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
